

Ideation Phase

Brainstorm & Idea Prioritization Template

Date: 18 June 2026

Team ID: VIP-C2-Book-A-Doctor-MERN

Project Name: Book A Doctor – Online Doctor Appointment Booking System

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Identified Problem Statement

Many hospitals and clinics still rely on manual appointment booking methods. Patients often experience long waiting times, difficulty finding available doctors, lack of appointment tracking, and communication delays.

After discussion and collaboration, the team selected the problem of improving healthcare appointment management through a digital platform.

Selected Problem

"Develop a web-based platform that enables patients to book doctor appointments online and allows doctors and administrators to efficiently manage appointments."

Step-2: Brainstorm, Idea Listing and Grouping

Ideas Generated

1. Online Doctor Appointment Booking System
2. Telemedicine Consultation Platform
3. Online Medical Record Management System
4. Hospital Queue Management System
5. Healthcare Notification System

6. AI-Based Doctor Recommendation System
7. Emergency Appointment Booking System

Idea Grouping

Appointment Management

- Online Appointment Booking
- Queue Management
- Emergency Appointments

Healthcare Communication

- Notifications
- Appointment Updates

Advanced Healthcare Services

- Telemedicine
 - AI Doctor Recommendation
-

Step-3: Idea Prioritization

Idea	Feasibility	Impact	Priority
Online Doctor Appointment Booking System	High	High	1
Healthcare Notification System	High	Medium	2
Hospital Queue Management System	Medium	High	3
Telemedicine Platform	Medium	High	4
AI Doctor Recommendation System	Low	High	5

Final Selected Idea

Book A Doctor – Online Doctor Appointment Booking System

Reason for Selection

- Solves a real-world healthcare problem.
- Easy to implement using MERN Stack.
- Provides high value to patients and doctors.
- Supports digital healthcare transformation.
- Can be enhanced with additional features in future versions.
